Dear Editor

Attached are the revised version of our article: 2183 and the feedback on the comments. We have tried to revise as much as possible accordingly but reserved some of the original ideas based on our judgement. The revisions were also made based on the Grammarly and turnitin report.

- We do not know what to include in the header and footer of the article as we feel that it is the admin's part not the authors'.

Thank you.

Subject: Re: [IJLTER] Editor Decision

Dear Dr Abdullah,

The decision for your paper is: **accept the paper if the requested changes are made**

You need to do the following and submit the paper **by email by 20th June 2020** for possible publication in the May 2020 issue if all the requested changes are made. The paper will undergo another fast-track review process to make sure all requested changes have been incorporated as far as appropriate.

Editor's Note

1. Format the paper **strictly** according to the template (attached).
2. Follow APA style strictly for the references. **References must strictly follow APA otherwise publication will be delayed.**

<http://www.apastyle.org/>

http://student.ucol.ac.nz/library/onlineresources/Documents/APA_guide_2015.pdf

3. Check if references are mentioned in the text (and vice-versa). The paper must have at least 30 references.

Failure to correct the references will delay the review process.

Also include recent papers (2018-2020) in the references (if need be).

Any non-English words must have their equivalent inside square brackets [].

References must be ordered in alphabetical order.

When writing the references in APA style, please pay attention to all details. Everything matters to us (a space, a comma, a full-stop, a bracket, a hyphen, lowercase vs uppercase, etc, etc).

4. Address all the concerns of the reviewers, as far as appropriate.

5. Mention the doi of each reference where available.

a. Go to <http://search.crossref.org/>

b. Copy and paste the title of the paper in the search box

c. Press the Enter key.

d. Copy and paste the doi back to the paper (into the reference section) if one is available. DOI may not be available for some of the references. This is fine.

e. There are two ways you can write the doi (1) doi:10.1037/a0028240 or (2) <http://dx.doi.org/10.1037/a0028240>

6. Prepare a separate word document to indicate the changes that were made as a result of each reviewer's comments. This is compulsory. The revised paper will not be considered without this. You must explain how you responded to EACH comment from EACH reviewer.

7. Paper must be at least 5500 words (inclusive of references) and must not exceed 10,000 words.

8. The abstract must be between 175-250 words. The abstract must preferably be in one paragraph only.

9. The conclusion must be between 175-300 words. One or two paragraphs is preferred but not compulsory. Avoid numbering in conclusion.

10. You are strongly advised to use [Grammarly](#) to check your paper. Create an account in Grammarly.com and upload your paper. You can use the free version. It will catch the obvious mistakes (if any). You should decide what to change and what to keep at it is (most alerts are just suggestions which could be ignored). You also have a MS Word add-in for Grammarly. It is attached to this email. You can install it and then open MS Word. You will see a new item in the menu. You will need to login with your Grammarly account credentials to access the services. A good score is above 90%. The higher the better. **You should not use a mixture of British and American English (for example behavioral v/s behavioural). You should use only one type of English.** The report is attached. You can also use MS Word Editor to make further corrections.

11. Similarity score should be reduced to less than 5%. The score from any one source must not be greater than 1%. Short common texts are ok. The report is attached.

12. If you have any supplementary files (such as survey questionnaire), please send them to us via email or include them in your main paper (recommended).

The paper will undergo a second round of review to ensure that all requested changes were made to the full satisfaction of the reviewers and IJLTER.

Failure to make the requested changes will delay the publication of the paper.

Note that our publication fees are \$400 USD for the May 2020 issue.

If you have any queries, please let us know.
