The result of the manuscript's plagiarism check is well received. However, reading the copy of the Turnitin plagiarism check thoroughly, we found that 4% of the similarities were identified due to the headers and footers of the J-REaLL template. Therefore, we revised our manuscript and decided not to write our manuscript within the journal template, thus unmeaningful similarities will not contribute to the plagiarism score. Herewith is our revised manuscript. We also send our plagiarism check via email. Thank you for considering our manuscript to be published in J-REaLL.

Sincerely,
Yunita Puspitasari
